

Special Event

DESIGN 2008

**At the 2nd International FURNIDEC Business,
Professional design becomes a design...celebration!**

This year FURNIDEC Business hosts for another year the 3rd Design Exhibition with authentic works of well established Greek designers with a view to promoting innovative furniture professionals. This special fair that is held in a specially designed hall, located in the exhibition centre, is a celebration of Furniture and Decoration Design dominated by particular lines and less common stylistic applications.

Inspired by an advanced design, the pioneer designers, architects and distinguished designers promote a different and particular philosophy on furniture related issues. An essential condition for participating in the special **Design** event is to have accomplished an original idea and creation combining innovation and functionality, high resistance, style and uncommon forms.

Also, the 2nd FURNIDEC Business will be completed with the 1st **National Design Contest** where the most innovative proposals in terms of aesthetics, functionality and construction will be awarded.
